

Environmental Policy

Rylex Plastics Management and Staff, are committed to achieving the highest standards of environmental protection. We will implement and control manufacturing processes with the aim of minimising waste, and preventing pollution to ensure environmental sustainability in all that we do.

Environmental Objectives

The Management and Staff at Rylex Plastics are committed and will strive to:

- *Minimise environmental impact through recycling of plastic off cuts and scraps*
- *Conserve energy within our business processes*
- *Ensure that our administrative processes have a minimal impact on the environment*

As part of our systems and processes we will:

- *Provide as appropriate, employee's, contractors and other relevant interested parties with adequate resources, regular information, instructions, training and supervision to ensure protection of the environment*
- *Train, educate and communicate with employee's, contractors and other relevant interested parties in regard to this policy and expectations of environmental protection where necessary*
- *Develop and implement procedures, processes and instructions to ensure protection of the environment*
- *Continually improve our Environmental Management System*
- *Conduct regular management review meetings to ensure our Environmental Management System is reviewed and controlled appropriately*
- *Define and meet objectives, by documenting and monitoring measurable environmental targets*
- *Comply to statutory, regulatory and other requirements*
- *Apply a Plan, Do, Check, Act methodology to our Environmental Management System*
- *Ensure our Environmental Management System is conformant and certified to ISO 14001 2015*
