

Occupational Health and Safety Policy

The Management and Staff at Rylex Plastics are committed to ensuring everyone involved in our processes are kept safe and healthy whilst at work. Management recognise their legal and moral responsibilities to provide a safe and healthy workplace for all employee's, contractors and other relevant interested parties involved in our processes.

Occupational Health and Safety Objectives

The Management and Staff at Rylex Plastics are committed and will strive to:

- *Provide safe equipment and systems of work, both in our workshop, and on site*
- *Communicate and consult with staff in regard to workplace hazards and risks*
- *Conduct health and safety audits, to identify, evaluate and control hazards and risks involved in our processes*

As part of our systems and processes we will:

- *Train, educate and communicate with employee's, contractors and other relevant interested parties in regard to this policy and occupational health and safety expectations where necessary*
- *Define and meet objectives, by documenting and monitoring occupational health and safety targets aimed at the elimination of workplace illness and injuries*
- *Conduct regular management review meetings to ensure our Occupational Health and Safety Management System is reviewed and controlled appropriately*
- *Promote fitness for work within our business*
- *Continually improve our Occupational Health and Safety Management System*
- *Comply to statutory, regulatory and other requirements*
- *Ensure our Occupational Health and Safety Management System is conformant and certified to ASNZS 4801:2001 and OSHAS 18001:2007*
